

Technical Specification: Spider X USB-C power cable

Part number **2000PWR612C**

Physical

Weight 70 g (2.7 Oz)

Length 2 m (6' 6.75")

Input

Interface USB-C Male

Power 12 VDC $\pm$ 10%, minimum 15 W

⚠ Caution: The USB-C port must comply with the USB-PD standard and be rated to deliver the above power for this cable to work. Normally these specifications are printed on the power source. If source ratings are unclear (not marked or specification is not known), please contact support before proceeding.

Protection Input over and undervoltage protection

Source Connect to current limited USB power source (aircraft or battery bank)

Output

Interface M8 Female 4-pin

Protection Over temperature protection

Application Connect to Spider X only (6000SX)

Environmental

Operating temperature -40°C to +85°C (-40°F to 185°F)

Storage temperature -40°C to +85°C (-40°F to 185°F)

Operation and storage Indoor, not water resistant
