

Technical Specification:

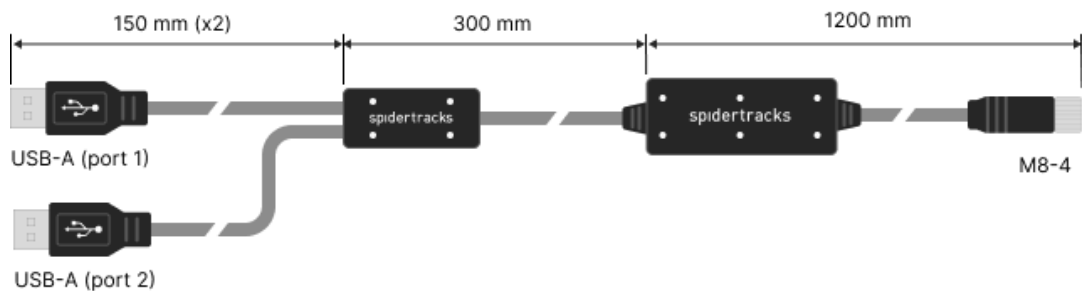

Spider X dual USB-A power cable

Part number **2000PWR612A**

Physical

Weight 110 g (3.9 Oz)

Length 1.65 m (5' 5")

Input

Interface 2x parallel USB-A Male

Power 5 VDC $\pm$ 10%, 2.4 A minimum (12 W)

⚠ Caution: Both USB-A plugs must be used if the source output is not rated to 2.4A or higher per port. If source ratings are unclear (not marked or specification is not known), please contact support before proceeding.

Protection Reverse polarity

Source Connect to current limited USB power source (aircraft or battery bank)

Output

Interface M8 Female 4-pin;

Protection Short circuit

Application Connect to Spider X only (6000SX)

Environmental

Operating temperature -30°C to +60°C (-22°F to 140°F)

Storage temperature -40°C to +85°C (-40°F to 185°F)

Operation and storage Indoor, not water resistant
